TEST RESULTS

Please call for results of any blood tests, urine tests, x-rays or scans we have ordered for you. You can phone for these results after 14:00.

DO NOT WAIT FOR THE DOCTOR TO CONTACT YOU. Due to the high numbers of results we process every day, it is impossible to call everyone routinely with their results.

TRAVEL HEALTH:

- If you are travelling abroad remember to book a 'travel health' appointment with the Practice Nurse. You will need to complete a 'travel risk form' initially. You can download from the website.
